

Dear Family,

Welcome to the *Step Into My Shoes — Philippines Family Kit*. This kit contains tools designed to help your family think about your calling together. **We are all called — to Jesus, to the Church, and to care for others.**

The four enclosed family activity cards will not only help you take what your child learned in church and connect it to your own family's life, but also help your family connect with your calling in a deeper way. Each of the 4 steps features a brief reflection,  an immersive virtual reality poverty experience in a Filipino community, and a few questions to talk through together.

For each step, set aside about 10-15 minutes to read the devotion, experience the virtual reality video, and discuss it together. You'll also need a way to view the virtual reality experience. The goggles in your toolkit will provide the maximum experience, but you can use a tablet or computer as well. These videos are fun for every member of the family to watch, of any age!

Sincerely,

Compassion's Church
Engagement Team
