

Foundation Opportunities for Investment & Partnership

The Foundation Relations team engages with a variety of private foundations, community foundations, donor-advised funds, collaborative partnerships, and philanthropic initiatives to provide strategic and transformative giving opportunities to meet critical needs and provide opportunities for millions of children living in poverty around the world.

We are here to facilitate your partnership with Compassion International and we welcome the opportunity to discuss how your grantmaking priorities align with the most urgent needs and key initiatives at Compassion International.

Our goal is to:

- Strategically align your specific funding priorities and philanthropic goals with Compassion programs and opportunities.
- Provide annual and multi-year funding opportunities for needs including unrestricted, programmatic, research, collaborative, and pilot-project funding.
- Ensure accurate and timely evaluation and stewardship reporting on gifts and grants.
- Share updates and opportunities for ongoing global engagement and connection.
